PART I. ADMINISTRATIVE INFORMATION

1.1 Request for Proposals (RFP)

The Louisiana Department of Environmental Quality, hereinafter referred to as the “Department”, requires the services of a well-qualified contractor to provide ozone and PM_{2.5} forecasts on a year-round basis. The goals are to enable the Department to declare air quality action days, as well as to inform the public of the potential for elevated ozone or PM_{2.5} concentrations. The Department invites all qualified parties (companies and individuals) to submit proposals for providing these services. Only one contract will be awarded.

1.2 Contract Term and Compensation

The term of the contract resulting from this RFP will be thirty-six (36) months, beginning approximately September 1, 2015, and ending approximately August 31, 2018. Compensation for contract services will be based on the Schedule of Prices (see RFP Section 3.2.7) to be incorporated into the contract, with a maximum total contract amount based on the scheduled number of units of requested services and the unit prices resulting from the RFP process. This contract and any amendments require the approval of the Division of Administration, Office State Procurement, Professional Contracts.

Although the contract will be federally funded in part, neither the United States Environmental Protection Agency, nor any other federal departments, agencies, or employees are, or will be, a party to this RFP or any resulting contract.

All changes and addenda must meet all requirements for the proposal. Any Proposer choosing to withdraw its proposal must submit a written withdrawal request to the Department.

1.7 Blackout Period

The Blackout Period is a specified period of time during a competitive sealed procurement process in which any proposer, bidder, or its agent or representative, is prohibited from communicating with any state employee or contractor of the State involved in any step in the procurement process about the affected procurement. The Blackout Period applies not only to state employees, but also to any contractor of the State. "Involvement" in the procurement process includes but may not be limited to project management, design, development, implementation, procurement management, development of specifications, and evaluation of proposals for a particular procurement. All solicitations for competitive sealed procurements will identify a designated contact person, as per Section 1.4 of this RFP. All communications to and from potential proposers, bidders, vendors and/or their representatives during the Blackout Period must be in accordance with this solicitation's defined method of communication with the designated contact person. The Blackout Period will begin upon posting of the solicitation. The Blackout Period will end when the contract is awarded.

In those instances in which a prospective proposer is also an incumbent contractor, the State and the incumbent contractor may contact each other with respect to the existing contract only. Under no circumstances may the State and the incumbent contractor and/or its representative(s) discuss the blacked-out procurement.

Any bidder, proposer, or state contractor who violates the Blackout Period may be liable to the State in damages and/or subject to any other remedy allowed by law.

Any costs associated with cancellation or termination will be the responsibility of the proposer or bidder.

Notwithstanding the foregoing, the Blackout Period shall not apply to:

1. A protest to a solicitation submitted pursuant to La. R.S. 39:1671;
2. Duly noticed site visits and/or conferences for bidders or proposers;
3. Oral presentations during the evaluation process;

4. Communications regarding a particular solicitation between any person and staff of the procuring agency provided the communication is limited strictly to matters of procedure. Procedural matters include deadlines for decisions or submission of proposals and the proper means of communicating regarding the procurement, but shall not include any substantive matter related to the particular procurement or requirements of the RFP.

2.5 Request For Proposal (RFP) Veteran-Owned and Service-Connected Small Entrepreneurships (Veteran Initiative) and Louisiana Initiative for Small Entrepreneurships (Hudson Initiative) Programs

The State of Louisiana Veteran and Hudson Initiatives are designed to provide additional opportunities for Louisiana-based small entrepreneurship (sometimes referred to as LaVet's and SE's respectively) to participate in contracting and procurement with the state. A certified Veteran-Owned and Service-Connected Disabled Veteran-Owned small entrepreneurship (LaVet) and a Louisiana Initiative for Small Entrepreneurships (Hudson Initiative) small entrepreneurship are businesses that have been certified by the Louisiana Department of Economic Development. All eligible vendors are encouraged to become certified. Qualification requirements and online certification are available at <http://smallbiz.louisianaeconomicdevelopment.com>.

Ten percent (10%) of the total evaluation points on this RFP are reserved for Proposers who are themselves a certified Veteran or Hudson Initiative small entrepreneurship or who will engage the participation of one or more certified Veteran or Hudson Initiatives small entrepreneurship as subcontractors.

Reserved points shall be added to the applicable Proposers' evaluation score as follows:

Proposer Status and Reserved Points

- Proposer is a certified small entrepreneurship: Full amount of the reserved points
- Proposer is not a certified small entrepreneurship but has engaged one or more certified small entrepreneurship to participate as subcontractors or distributors. Points will be allocated based on the following criteria:
 - the number of certified small entrepreneurship to be utilized
 - the experience and qualifications of the certified small entrepreneurship(s)
 - the anticipated earnings to accrue to the certified small entrepreneurship(s)

If a Proposer is not a certified small entrepreneurship as described herein, but plans to use certified small entrepreneurship(s), the Proposer shall complete and include in their proposal, Appendix D, Veteran-Owned and Service-Connected Small Entrepreneurships (Veterans Initiative) and Louisiana Initiative for Small Entrepreneurships (Hudson Initiative) Programs Table. Reserved points will be allocated according to the information provided by the proposer, not by what could be inferred.

During the term of the contract and at expiration, the Contractor will also be required to report Veteran-Owned and Service-Connected Disabled Veteran-Owned and Hudson Initiative small entrepreneurship subcontractor or distributor participation and the dollar amount of each. See Attachment 3, Form B

3.1 Proposal Content

Proposals submitted in response to this RFP should include as much detail as practical to provide a straightforward, clear, and concise description of the Proposer's ability to meet the requirements of the RFP. The Proposer should demonstrate his understanding of the Department's requirements. Each Proposer is solely responsible for the accuracy and completeness of his proposal.

3.2 Elements for Technical Proposal (Volume I)

Each Proposer should address the elements described by this section in his Technical Proposal in the order listed.

3.2.1 Proposal Cover Sheet

Each Proposer must complete Appendix A, Proposal Cover Sheet. **Proposals lacking a signed cover sheet shall be disqualified.**

3.2.2 Table of Contents

Each Proposer should include a paginated Table of Contents to facilitate locating proposal information.

3.2.3 Scope of Services

Each Proposer should submit a Scope of Services that clearly and concisely describes his technical and management approach to completing the requirements described in Attachment 1, Statement of Work (SOW). The Proposer's Scope of Services should be presented in as much detail as judged necessary by the Proposer. An unsupported statement that the Proposer will comply with all the requirements of this solicitation shall not be acceptable.

Each Proposer's Scope of Services should include a brief introduction followed by a discussion of the following technical elements, in the order listed.

(1) Project Management

The Proposer should describe the proposed approach to project management, including, at a minimum, the following information:

(a) Overall company organization

Describe the overall organization of the company. Include a company organizational chart. If multiple offices are involved in the project, describe how the home office and branch offices will interact with each other and with the Department. Include a description of the involvement of any proposed subcontractors in this project (See Item 3.2.6, Subcontractors).

(b) Project organization

The Proposer should provide the following information

Provide a project-specific organizational chart identifying the **Proposer's key personnel and key subcontractor personnel** proposed for work on this project as identified in Attachment 1, Statement of Work, 5.0 Minimum Qualifications of the Contractor's Personnel. Show the lines of authority and lines of communication among all participants, points of contact for the Department, and any subcontractor relationships. The chart should be realistic and practical. The organizational chart should be accompanied by a narrative identifying the function and responsibilities of each position identified in the organizational chart and the names of specific personnel proposed for assignment to these positions (include dual assignments, multiple individuals assigned to one position, and subcontractors).

(c) Management approach

The Proposer should describe the proposed approach to project management. Project management shall include, but is not limited to, supervision of the Contractor's personnel, communication between the Contractor and the Department, meetings and training sessions, contract administration, and preparation and submission of submittals and deliverables in general.

(2) Performance of Project Tasks

The Proposer should describe the proposed approach to the performance of the technical tasks described in Attachment 1, (SOW). The Proposer should include a description of deliverables to be received by the Department as end products of the services rendered.

3.2.4 Personnel Qualifications and Experience

The Proposer should provide evidence that its proposed staff meets or exceeds the minimum education and experience requirements described in Attachment 1, Statement of Work, Section 5.0 Minimum Qualifications of the Contractor's Personnel. The LDEQ will consider only experience that is relevant to the tasks listed in Attachment 1 (SOW).

The Proposer should describe the qualifications and experience of **all key personnel** designated in the project-specific organizational chart (provided under Section 3.2.3, Item

1b. above) as assigned to this project. The Proposer should include résumés showing each assigned individual's education, registrations, accomplishments, and experience.

3.2.5 Company Qualifications and Experience

The Proposer should describe the company's qualifications and experience that are relevant to the proposed tasks listed in Attachment 1 (SOW). Experience will be considered relevant if prior projects major features include ozone and PM_{2.5} forecasts in text (email and website). Both government and privately-sponsored work may be included. Experience gained through previous contracts with the Department may be considered by the Department for proposal evaluation, whether or not listed by the Proposer.

Each Proposer should describe projects undertaken by his company during the past three (3) years from the proposal submittal date. Experience gained through joint ventures by the company may be included. In the event that the company has not done business under its present organizational name and status for three (3) years, other corporate experience brought to the company through mergers or similar corporate creations may be added.

The Proposer's experience information should be submitted in the tabular format provided in Appendix B, Experience Table. The table may be enlarged or duplicated as necessary to provide all required information. For each listed project, the Proposer should provide:

- (1) the name and address of the client (sponsoring agency or company);
- (2) the name, telephone number, and email address of the client's contact person;
- (3) the project title and contract number;
- (4) the starting and ending dates of the project (contract term);
- (5) the total dollar amount of the project; and
- (6) a brief description of the project.

Each Proposer may include as many entries as he desires, however, only complete entries will be considered. Because the Department will contact a representative sample of the listed clients as references during the evaluation process, Proposers should verify that all client contact information and telephone numbers are current.

3.2.6 Subcontractors

All subcontractors proposed for use by the Proposer for this project should be identified on Appendix A, Proposal Cover Sheet. The Proposer should provide a signed letter of

agreement or a copy of a signed contract from any subcontractor. This commitment must demonstrate the subcontractor's willingness to undertake his portion of the proposed project.

If any of the subcontractors proposed by the Proposer is a certified small entrepreneurship, the proposer shall complete and include in their proposal all documentation as described in Section 2.5 of this RFP.

3.2.7 Price Proposal (Schedule of Prices)

Each Proposer must submit a price proposal using the Department's pricing structure provided in Attachment 2, Schedule of Prices. No other format shall be acceptable. **Proposals not including a Schedule of Prices shall be disqualified.** Additionally, all blanks on the Schedule of Prices must be completed. For items with no charge, "\$0" must be entered. If a Proposer identifies deficiencies or errors in this format, he should bring this information to the attention of the Department prior to proposal submission. The Department will review the information, and, if necessary, will issue any correction as an addendum to the RFP.

Only Attachment 2, Schedule of Prices will be considered in evaluating the price proposal. The Proposer is advised to not include any additional terms and conditions, company fee schedules, etc., as they will not be considered.

The rates provided by the Proposer on Schedule of Prices must include all direct costs (labor, supplies, equipment, incidentals and expendables, duplication/copying, communications, postage, shipping and handling, transportation, taxes, etc.), all indirect costs (fringe, overhead, general and administrative costs), travel expenses associates with this line and profit.

3.3 Elements for Financial Information (Volume II)

Financial information is used for determination of responsibility (See Section 4.6), and not as evaluation criteria. In a separate volume, proposals should include evidence demonstrating the Proposer's financial capability to carry out this project. Evidence can include, but is not limited to:

- (Preferred) Financial Statements reviewed by an independent CPA for the past 3 years. This includes:
 - Notes to the Financial Statements, and
 - The CPA's Reviewed Report for each year
- Letter of intent to obtain a Letter of Credit
- Letter of intent to obtain a 100% Performance Bond

If a performance bond is required, the successful Proposer shall be required to provide a performance (surety) bond in the amount of 100% of the contract to insure the successful performance under the terms and conditions of the contract negotiated between the successful

Proposer and the State. Any performance bond furnished shall be written by a surety or insurance company currently on the U.S. Department of the Treasury Financial Management Service list of approved bonding companies which is published annually in the *Federal Register*, or by a Louisiana domiciled insurance company with at least an A-rating in the latest printing of the A.M. Best's Key Rating Guide to write individual bonds up to 10 percent of policyholders' surplus as shown in the A.M. Best's Key Rating Guide or by an insurance company that is either domiciled in Louisiana or owned by Louisiana residents and is licensed to write surety bonds.

No surety or insurance company shall write a performance bond which is in excess of the amount indicated as approved by the U.S. Department of the Treasury Financial Management Service list or by a Louisiana domiciled insurance company with an A-rating by A.M. Best up to a limit of 10 percent of policyholders' surplus as shown by A.M. Best; companies authorized by this Paragraph who are not on the treasury list shall not write a performance bond when the penalty exceeds 15 percent of its capital and surplus, such capital and surplus being the amount by which the company's assets exceed its liabilities as reflected by the most recent financial statements filed by the company with the Department of Insurance.

The selected Proposer may be required to provide additional information as requested by the Department.

3.4 Proposal Format

Proposals submitted for consideration should follow the format and order of presentation provided in Part III, Sections 3.1 and 3.2. Each volume of the proposal should be typed and securely bound in a three ring binder. Pages of the technical proposal should be numbered consecutively and each section should be marked by a labeled page divider. Proposals should be prepared simply, legibly, and economically. Elaborate binders, color pictures, and promotional material are neither necessary nor desired.

3.5 Use and Disclosure of Confidential Information

Pursuant to LSA-R.S. 30:2030 and R.S. 44:1, et seq., documents submitted by Proposers in response to this RFP shall be available to the public. If a Proposer wishes to secure nondisclosure of information contained in his proposal, the Proposer must submit a written request to the Secretary of the Department in accordance with LAC 33:I. Chapter 5 and applicable laws. Upon review of the written request, the Secretary of the Department will determine if the information requires confidentiality.

PART IV. PROPOSAL EVALUATION AND SELECTION

4.1 Evaluation Process

A Selection Committee composed of the Department personnel will evaluate and rank the proposals according to the criteria listed in Section 4.2. Any proposal that does not provide the following mandatory items shall be disqualified by the Department and shall not be evaluated by the Selection Committee:

- (1) a signed Proposal Cover Sheet (Part III, Section 3.2.1); and
- (2) a Schedule of Prices (Part III, Section 3.2.7).

Proposals will be evaluated in light of the material and the substantiating evidence presented in the proposal, not on the basis of what can be inferred. Additionally, the Department may contact a representative sample of the clients provided to describe the company's experience as references during the evaluation process. (See Section 3.2.5 above.)

The scores will be compiled using Table 2. Evaluation Criteria. The responsible and qualified Proposer with the highest rated proposal will be recommended for tentative selection. The Selection Committee will report its comments and recommendations to the Department's Secretary or his designee. The tentative selection is subject to the approval of the Secretary of the Department or his designee and the Division of Administrative, Office of State Procurement, Professional Contracts. The Secretary of the Department or his designee is the only individual who can legally commit the Department to the expenditure of funds in connection with this proposed procurement. Any other commitment, either explicit or implied, is invalid. The contract will not be valid until approved by the Division of Administration, Office of State Procurement, Professional Contracts.

4.2 Evaluation Criteria

The Evaluation Team will evaluate and score the proposals using the criteria and scoring as follows:

Table 2. Evaluation Criteria

CRITERIA	MAXIMUM SCORE
1. Merit of the Proposer's Scope of Services (Part III, Section 3.2.3) and overall quality of the proposal (Part III, Sections 3.1 through 3.4).	15
2. Qualifications and relevant experience of the Proposer's key personnel assigned to the project (including subcontracted personnel as allowed) (Part III, Sections 3.2.4 and 3.2.6).	20
3. Qualifications and relevant experience of the Proposer in providing ozone and PM _{2.5} forecasts in text (email and website) (Part III, Sections 3.2.5 and 3.2.6).	30
4. Price (Part III, Section 3.2.7).	25
5. Hudson/Veteran Small Entrepreneurship Program (Part IV, Section 4.4)	10
TOTAL SCORE	100

4.3 Price Evaluation Calculation

The proposal with the lowest total price from Attachment 2, Schedule of Prices, will receive the maximum possible points. All other proposals will be rated using the following formula:

$$25 \times \frac{\text{Price of lowest proposal}}{\text{Price of proposal being rated}} = \text{Proposal price points}$$

4.4 Veteran-Owned and Service-Connected Small Entrepreneurships (Veteran Initiative) and Louisiana Initiative for Small Entrepreneurships (Hudson Initiative) Programs Participation (Value of 10% of the total evaluation points)

Ten percent (10%) of the total evaluation points on this RFP are reserved for Proposers who are themselves a certified Veteran or Hudson Initiative small entrepreneurship or who will engage the participation of one or more certified Veteran or Hudson Initiatives small entrepreneurship as subcontractors.

Reserved points shall be added to the applicable Proposers' evaluation score as follows:

Proposer Status and Reserved Points:

- Proposer is a certified small entrepreneurship: Full amount of the reserved points
- Proposer is not a certified small entrepreneurship but has engaged one or more certified small entrepreneurship to participate as subcontractors or distributors. Points will be allocated based on the following criteria:

- the number of certified small entrepreneurship to be utilized
- the experience and qualifications of the certified small entrepreneurship(s)
- the anticipated earnings to accrue to the certified small entrepreneurship(s)

4.5 Clarifications and Oral Presentations

Written or oral clarifications may be requested for the purpose of enhancing the Department's understanding of a proposal element, eliminating minor irregularities, or correcting apparent clerical mistakes in a proposal. Written or oral discussions may be conducted with Proposers who submit proposals determined to be reasonably susceptible of being selected for award. Any commitments or representations made during discussions, if conducted, may become formally recorded in the final contract. However, proposals may be accepted without such clarifications or discussions and award may be made on the basis of initial offers received. Therefore, proposals should be complete as submitted and reflect the most favorable terms available.

Any or all Proposers may be requested to make oral presentations of their proposals to enhance the Department's understanding prior to the final selection of the Contractor. Proposers selected for oral presentations will be those susceptible of receiving an award. These Proposers will be notified by the Department's Financial Services Division on or before July 3, 2015. Presentations will be made by the selected Proposers on July 10, 2015, at a time assigned by the Department.

In the event oral presentations are requested, Proposers will be evaluated on the clarity and detail of the technical approach with a maximum score of twenty points, which will be added to the initial scores for a final score.

4.6 Determination of Responsibility

Determination of the Proposer's responsibility relating to this procurement shall be made according to the standards set forth in LAC 34:2536. The Department is prohibited from awarding any contract for consulting services for \$50,000 or more to any person or firm unless the Department has first determined that such person or firm is responsible according to the standards described in this section. The Department must find that the selected Proposer:

- (1) has adequate financial resources for performance, or has the ability to obtain such resources as required during performance;
 - (i) Upon completion of the Evaluation and Ranking Report, the highest rated proposal shall receive further review through preparation of a Financial Statement Analysis of the documentation provided in response to Section 3.3 of the RFP. The Department reserves the right to request additional information to satisfy financial status review requirements.
- (2) has the necessary experience, organization, technical qualifications, skills, and facilities, or has the ability to obtain them; and
- (3) is able to comply with the proposed or required time of delivery or performance schedule; and

- (4) has a satisfactory record of integrity, judgment, and performance (A Proposer which is seriously delinquent in current contract performance, considering the number of contracts and the extent of delinquencies of each, shall in the absence of evidence to the contrary or compelling circumstances, be presumed to be unable to fulfill this requirement.); and
- (5) is otherwise qualified and eligible to receive an award under applicable laws and regulations.

Proposers should ensure that their proposals contain sufficient information for the Department to make its determination by presenting acceptable evidence of financial resources, experience, organization, technical qualifications, skills, personnel, and facilities, to perform the services called for by the contract.

4.7 Contract Award and Debriefings

The Contractor shall not perform out-of-scope work not authorized by written amendment prior to the expiration date of the contract. Any increases to the maximum amount shall be made by written amendment and approved by the Division of Administration, Office of State Procurement, Professional Contracts. Any additional or out-of-scope work performed by the Contractor without written authorization from the Department in the form of an approved amendment shall not entitle the Contractor to payment or an increase in the maximum contract price.

6. FISCAL FUNDING

The continuation of this contract is contingent upon the appropriation of funds to fulfill the requirements of the contract by the legislature. If the legislature fails to appropriate sufficient monies to provide for the continuation of the contract, or if such appropriation is reduced by the veto of the Governor or by any means provided in the appropriations act to prevent the total appropriation for the year from exceeding revenues for that year, or for any other lawful purpose, and the effect of such reduction is to provide insufficient monies for the continuation of the contract, the contract shall terminate on the date of the beginning of the first fiscal year for which funds are not appropriated.

7. DELIVERABLES

The Contractor shall provide to the Department the deliverables specified in Attachment 1, Statement of Work as products of the services rendered under this contract. The Department reserves the right to reject any deliverable that is unsatisfactory. The Contractor shall correct any omissions or errors and resubmit the deliverable.

8. OWNERSHIP OF DOCUMENTS

Upon completion or termination of this contract, all data collected by the Contractor and all documents, notes, and files collected or prepared specifically in connection with this work, except the Contractor's personnel and administrative files, shall become and be the property of the Department and the Department shall not be restricted in any way whatsoever in its use of such material. In addition, at any time during the contract period, the Department shall have the right to require the Contractor to furnish copies of any or all data and all documents, notes and files collected or prepared by the Contractor specifically in connection with this contract within five (5) days of receipt of written notice issued by the Department.

9. CORRECTION OF DEFICIENT WORK

If required by the Department, prior to payment, the Contractor shall promptly, without cost to the Department, correct any deficient work performed by him or his subcontractors. Deficient work is defined as work that is (a) unsatisfactory, faulty, or defective, or (b) does not conform to the requirements of the contract documents. If the Contractor does not correct such deficient work within the time specified by the Department, the Department may have the deficiency corrected by a separate party. All direct and indirect costs for such correction shall be paid by the Contractor. If corrections made to deficient work interfere with any other Department work by other parties, the Contractor shall also bear the expenses caused by that interference.

10. INDEMNIFICATION AND LIMITATION OF LIABILITY

Neither party shall be liable for any delay or failure in performance beyond its control resulting from acts of God or force majeure. The parties shall use reasonable efforts to eliminate or minimize the effect of such events upon performance of their respective duties under Contract.

Contractor shall be fully liable for the actions of its agents, employees, partners or subcontractors and shall fully indemnify and hold harmless the Department and its Authorized Users from suits, actions, damages and costs of every name and description relating to personal injury and damage to real or personal tangible property caused by Contractor, its agents, employees, partners or subcontractors, without limitation; provided, however, that the Contractor shall not indemnify for that portion of any claim, loss or damage arising hereunder due to the negligent act or failure to act of the Department. If applicable, Contractor will indemnify, defend and hold the Department

and its Authorized Users harmless, without limitation, from and against any and all damages, expenses (including reasonable attorneys' fees), claims, judgments, liabilities and costs which may be finally assessed against the Department in any action for infringement of a United States Letter Patent with respect to the Products furnished, or of any copyright, trademark, trade secret or intellectual property right, provided that the Department shall give the Contractor: (i) prompt written notice of any action, claim or threat of infringement suit, or other suit, (ii) the opportunity to take over, settle or defend such action, claim or suit at Contractor's sole expense, and (iii) assistance in the defense of any such action at the expense of Contractor. Where a dispute or claim arises relative to a real or anticipated infringement, the Department or its Authorized Users may require Contractor, at its sole expense, to submit such information and documentation, including formal patent attorney opinions, as the Commissioner of Administration shall require.

The Contractor shall not be obligated to indemnify that portion of a claim or dispute based upon: i) Authorized User's unauthorized modification or alteration of a Product, Material or Service; ii) Authorized User's use of the Product in combination with other products not furnished by Contractor; iii) Authorized User's use in other than the specified operating conditions and environment.

In addition to the foregoing, if the use of any item(s) or part(s) thereof shall be enjoined for any reason or if Contractor believes that it may be enjoined, Contractor shall have the right, at its own expense and sole discretion as the Authorized User's exclusive remedy to take action in the following order of precedence: (i) to procure for the State the right to continue using such item(s) or part (s) thereof, as applicable; (ii) to modify the component so that it becomes non-infringing equipment of at least equal quality and performance; or (iii) to replace said item(s) or part(s) thereof, as applicable, with non-infringing components of at least equal quality and performance, or (iv) if none of the foregoing is commercially reasonable, then provide monetary compensation to the Department up to the dollar amount of the Contract.

For all other claims against the Contractor where liability is not otherwise set forth in the Contract as being "without limitation", and regardless of the basis on which the claim is made, Contractor's liability for direct damages, shall be the greater of \$100,000, the dollar amount of the Contract, or two (2) times the charges rendered by the Contractor under the Contract. Unless otherwise specifically enumerated herein or in the work order mutually agreed between the parties, neither party shall be liable to the other for special, indirect or consequential damages, including lost data or records (unless the Contractor is required to back-up the data or records as part of the work plan), even if the party has been advised of the possibility of such damages. Neither party shall be liable for lost profits, lost revenue or lost institutional operating savings.

The Department and Authorized User may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor, or may proceed against the performance and payment bond, if any, as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them.

11. NONASSIGNABILITY

The Contractor shall not assign any interest in this contract by assignment, transfer, or novation, without the prior written consent of the Department. This provision shall not be construed to prohibit the Contractor from assigning his bank, trust company or other financial institution any money due or to become due from approved contracts without such prior written consent. Notice of any such assignment or transfer shall be furnished promptly to the Department.

12. AUDIT OF RECORDS

The State, through the Legislative Auditor, and/or the Office of the Governor, Division of Administration, the Department's Audit Services, U.S. Environmental Protection Agency, or any of their duly authorized representatives, shall be entitled to audit the books, documents, papers, and records of the Contractor and any subcontractors which are reasonably related to this contract.

13. RECORDS RETENTION

The Contractor and its subcontractors shall maintain all books, documents, papers, accounting records and other evidence pertaining to costs incurred and shall make such materials available at their respective offices at all reasonable times during the contract period and for three (3) years from date of final payment under this contract, for inspection or audit, and copies thereof shall be furnished if requested.

14. TERMINATION FOR CAUSE

The Department may terminate this contract for cause based upon the failure of the Contractor to comply with the terms and/or conditions of the contract; provided that the Department shall give the Contractor written notice specifying the Contractor's failure. If within thirty (30) days after receipt of such notice, the Contractor shall not have either corrected such failure or, in the case of failure which cannot be corrected in thirty (30) days, begun in good faith to correct said failure and thereafter proceeded diligently to complete such correction, then the Department may, at its option, place the Contractor in default and the contract shall terminate on the date specified in such notice.

The Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed. The Department shall be relieved of liability for costs for any undelivered work as of the effective date of termination.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Department for damages sustained by the Department by virtue of any breach of the contract by the Contractor, and the Department may withhold any payments to the Contractor for the purpose of setoff until such time as the exact amount of damages due the Department from the Contractor is determined.

15. TERMINATION FOR CONVENIENCE

The Department may terminate the contract at any time by giving thirty (30) days written notice to the Contractor. If the contract is terminated by the Department, as provided herein, the Contractor shall promptly submit a statement showing in detail the actual services performed to date of termination. The Contractor shall then be paid the proportion of the total contract amount which bears the same ratio as the services completed bears to the total scope of services called for in this contract, less payments of compensation previously made for allowable costs, including non-cancelable commitments.

16. REMEDIES FOR DEFAULT

Any claim or controversy arising out of this contract shall be resolved by the provisions of LSA-R.S. 39:1672.2 through 1672.4.

17. ANTIDISCRIMINATION

Any act of discrimination committed by Contractor, or failure to comply with these statutory obligations when applicable shall be grounds for termination of this contract.

18. COMPLIANCE WITH LAWS AND GRANT

The Contractor and its employees, subcontractors and agents shall comply with all applicable Federal, State and Local laws and ordinances, in carrying out the provisions of this contract.

The Contractor is hereby advised that a U.S. Environmental Protection Agency Grant is being used by the Department to partially fund this contract. The Contractor shall comply with the requirements of this grant. See Attachment 5, Requirements of the Grant. Continuation of this contract is contingent upon grant approval.

19. FORCE MAJEURE

The Contractor or the Department shall be exempt from performance under the contract for any period that the Contractor or the Department is prevented from performing any services in whole or in part as a result of an act of God, strike, war, civil disturbance, epidemic, or court order, provided the Contractor or the Department has prudently and promptly acted to make any and all corrective steps that the Contractor or the Department can promptly perform. Subject to this provision, such non-performance shall not be considered cause or grounds for termination of the contract.

20. TAX RESPONSIBILITY

The Contractor hereby agrees that the responsibility for payment of taxes from the funds received under this contract shall be the Contractor's obligation and shall be identified under the federal tax identification number as noted above.

21. SUCCESSORS AND ASSIGNS

This contract shall be binding upon the successors and assigns of the respective parties hereto.

Failure of the Contractor to purchase and/or maintain any required insurance shall not relieve the Contractor from any liability or indemnification under the contract.

f. **Renewal of Insurance**

In the event that the Contractor provides certificates of insurance valid for a period of time less than the term of the contract, said certificates shall be acceptable, however, the Contractor shall be obligated to renew its insurance policies such that continuous coverage is provided for the entire contract term. The Contractor shall provide the Department with valid certificates of renewal of the insurance upon the expiration of the policies. In the event the Contractor fails or refuses to renew any of its insurance policies to the extent required by this contract, or any policy is canceled, terminated, or modified so that the insurance does not meet the requirements of this contract, and the Contractor does not otherwise satisfy the liability guarantees required by this contract, the Department may refuse to make payment of any further monies due or coming due under this or other agreements between the Contractor and the Department. The Department, in its sole discretion, may use monies retained under this paragraph to renew the Contractor's insurance for the periods and amounts referred to above. The parties further agree that Contractor is a wholly independent contractor and is exclusively responsible for its employees, owners, and agents. Contractor hereby agrees to protect, defend, indemnify and hold the State of Louisiana, its departments, agencies, agents and employees harmless from any such assertion or claim that may arise from the performance of this contract.

i. **Disclaimer**

The Contractor expressly understands and agrees that any insurance protection or other liability guarantees required or requested by this contract shall in no way limit the Contractor's obligations assumed in the contract, and shall not be construed to relieve the Contractor from liability in excess of such coverage or guarantees, nor shall it preclude the Department from taking such other actions as are available to it under any provision of this contract or otherwise in law.

28. **VETERAN-OWNED AND SERVICE-CONNECTED SAMLLE ENTREPRENEURSHIPS (VETERAN INITIATIVE) AND LOUISIANA INITIATIVE FOR SMALL ENTREPRENEURSHIPS (HUDCONS INITIATIVE) PROGRAMS REPORTING REQUIREMENTS**

In accordance with LAC 19:VIII.Chapters 11 and 13 and LAC 19:IX.Chapter 11 and 13, this contract may be terminated if the Department becomes aware that the Contractor has failed to use good-faith efforts to obtain certified LaVet and/or SE-HI participation. The state may impose sanctions on a contractor who fails to make good-faith efforts or on a LaVet and/or SE-HI that was found to be guilty of deception relating to certification. Sanctions may include a suspension from doing business with the state for up to 3 years.

29. SUBSTITUTION OF PERSONNEL

A detailed résumé of the individual's qualifications and a written justification for the change must be submitted to the Department for approval prior to any personnel substitution. It shall be acknowledged by the Contractor that every reasonable attempt shall be made to assign the personnel listed in the Contractor's proposal.

30. SUBCONTRACTORS

STATEMENT OF WORK**

**“Ozone and PM_{2.5} Air Quality Index (AQI) Forecast”
Louisiana Department of Environmental Quality**

1.0 INTRODUCTION

The Louisiana Department of Environmental Quality, hereinafter referred to as “the Department” is responsible for monitoring ozone conditions and providing necessary forecast information to the public. This project shall require contractor services for providing assistance in forecasting, via text, ozone and PM_{2.5} Air Quality Index (AQI) based on meteorological parameters in the Baton Rouge, Shreveport, Lake Charles, Monroe, Lafayette, New Orleans, Alexandria and Thibodaux areas.

1.1 Goals and Objectives

The goals are to enable the Department to declare air quality action days, as well as to inform the public of the potential for elevated ozone or PM_{2.5} concentrations. The objective of this contract is to provide ozone and PM_{2.5} forecasts on a year-round basis.

2.0 BACKGROUND INFORMATION

Until 2009, the forecasts only included ozone and were only required during ozone season, which is typically May through September. Several changes were required in 2009, including forecasting for Particulate Matter (PM_{2.5}) as well as ozone, forecasting on a year-round basis, and forecasting for eight (8) cities instead of the three (3) that were forecasted in the past. Since the Department has no permanent position for a meteorologist, this service has been obtained by entering into contracts with qualified parties. These contractors have provided the necessary Air Quality Index forecasts that are required to meet the requirements of the Performance Partnership Grant (PPG) commitments.

3.0 CONTRACTOR TASKS

Services provided by the Contractor shall include the following tasks.

3.1 Commencement Conference

A Commencement Conference shall be held between the Contractor’s key personnel and Department staff to discuss the commencement of the project and answer any questions regarding the contract. The Commencement Conference shall be held at the Department’s Headquarters in Baton Rouge (602 North 5th Street). The Department will schedule the conference, prepare an agenda for the meeting, take the minutes, and distribute copies of the minutes to all participants. The Contractor shall come to the conference prepared to request clarification of any issues not clearly understood. The Department reserves the right to hold a conference call in lieu of a meeting at the Department’s Headquarters, or waive the requirement for a commencement conference.

3.2 Technical Assistance and Consulting Services

A meteorologist and/or forecaster shall be provided by the Contractor and shall be on call 7 days a week, 24 hours a day as needed by the Department, to accomplish the required tasks.

Technical assistance and consulting services provided by the Contractor shall include the following tasks:

- (1) submit maximum daily forecast Air Quality Index (AQI) for ozone and PM_{2.5} for the State of Louisiana for current day and the next two consecutive days along with a brief state-wide forecast text discussion including meteorological conditions, etc. to further explain the forecast;
- (2) provide an external website to display the AQI forecast text files which the Department's automated system can retrieve for display on its website;
- (3) forecast AQI numbers for ozone and PM_{2.5} to be submitted to EPA AIRNow program for Baton Rouge, Shreveport, Lake Charles, Monroe, Lafayette, New Orleans, Alexandria and Thibodaux areas;
- (4) submit data no later than 2:00 p.m. CST daily, with electronic notification being sent to the Department Project Manager when data is submitted to the Department website;
- (5) submit Air Quality Summary providing the previous day's actual AQI and concentration for each pollutant (PM_{2.5} and Ozone) for each area every morning;
- (6) disseminate forecasts to the Department staff and EPA AIRNow program;
- (7) communicate with the Department staff to ensure an understanding of the forecasts and assist with public outreach messages on high pollution days; and
- (8) consult with media as requested and directed by the Department

3.3 Monthly Summary Reports

The Contractor shall submit monthly summary reports to the Department Project Manager by email or facsimile. The reports shall include the following information in graphical and text format as agreed upon by the Department and the Contractor for each city:

- (1) Number of days predicted in each category (good, moderate, etc.) for each pollutant (i.e., ozone and PM_{2.5})
- (2) Actual number of days in each category (good, moderate, etc.) for each pollutant (i.e., ozone and PM_{2.5})

(3) Percent accuracy of predictions (based on 2 p.m. previous day forecast) for each pollutant (i.e., ozone and PM_{2.5})

(4) Monthly meteorological summary

3.4 Year-End Report

The Contractor shall submit an end-of year air quality and forecast performance summary in a technical memorandum including for each pollutant (i.e., ozone and PM_{2.5}): predictions versus actual readings, accuracy of forecast in each category and total number of observed days in each category. The format of the report shall be agreed upon by the Department and the Contractor.

4.0 PROJECT SCHEDULE

The project schedule shall be in accordance with SOW 3.2 above and as determined by the Department.

5.0 MINIMUM QUALIFICATIONS OF THE CONTRACTOR'S PERSONNEL
